LAPD Hosts Free Catalytic Converter Etching Wednesday At Silver Lake Reservoir

People who want their vehicle identification numbers etched onto their catalytic converters as a preventative measure against theft can get the service done for free in Silver Lake on Wednesday. The event will run from 10 a.m. to 3 p.m. at the Silver Lake Reservoir, 1863 Silver Lake Blvd, north of the dog park. The event is hosted by the Los Angeles Police Department's Northeast Auto Detectives and the Los Angeles County Sheriff's Department's Office Taskforce for Regional Auto Theft Prevention.

Metro's North Hollywood housing project, District NoHo, nearing approval.

A \$1 billion project planned for the North Hollywood rail/bus station that includes more than 1,500 apartments, new commercial centers and about \$80 million in station improvements is nearing approval.

LA Metro, the county transit agency, is diving head first into the largest transit-centered housing project in its history, on 15.9 acres of its own land. Decades in the making, Metro and the City of Los Angeles have hammered out an agreement with a private developer to not only build the project, but also pay for Metro station amenities.

The District NoHo project is touted by Trammell Crow Company and its subsidiary High Street Residential, as well as Los Angeles City Councilman and Metro Board Member Paul Krekorian, as transformational for the East San Fernando Valley. They say that over 10 years, the project will create plenty of market-based and income-restricted housing; 105,125 sq. feet of retail and restaurant uses; and 580,374 sq. feet of office space.
